STEWARDSHIP

"I say to you, this poor widow put in more than all the other contributors to the treasury. For they all contributed out of their abundance; but she out of her poverty has put in everything she had, her whole living." MARK 12:43-44

Jesus gets right to the point – we are all called to give money to support the mission of the Church, regardless of our circumstance. No gift is too small or insignificant! Giving money to support the mission of our local parish is a matter of our faith, just like praying and participating in parish ministries. When you make a financial offering,

A Prayer Before Holy Mass

Heavenly Father: I, your unworthy servant, come to worship You in this Holy Sacrifice of the Mass. By Your grace, kindly help me to listen attentively, pray devoutly, and receive worthily the Sacred Body and Blood of Your Son, our Lord Jesus Christ. May Your Holy Spirit open the eyes of my heart to perceive more fully the great Mystery that takes place on the sacred altar. At this Holy Mass, I wish to pray in particular for the following intentions: (here name them). Amen.

THE PROGRESS OF "PROVIDENTIAL CARE AND ENDURING LOVE"

We are very enthusiastic over the initial response of the parishioners to our Increased Offertory Giving Program. For the next few weeks there will be follow up efforts to reach out to those who have not yet responded. The process is slated to continue for a few more weeks and then we will receive a report of the results. This report will be shared at a convenient opportunity around the end of the year. These results will also be studied by the Finance Council budgeting and other financial decision making for the next few years. Again, my thanks for your generosity.

CHURCH SOUND SYSTEM UPGRADE

For the past year or so we had been experience periodic performance issues with the sound system in church. Most of the equipment was over ten years old. In the world of technology ten years might just as well be a century. During the late summer Tech Electronics gave us a bid for an upgrade to make the system more efficient. A new sound mixer and several new microphones for use in the sanctuary and in the choir area plus new wireless microphones have now been installed. So far we are pleased with the results and I you will find it much easier to hear no matter where in church you sit. My thanks to Mr. Scott Shipley for his invaluable assistance with the project upgrade.

BE ON THE LOOK OUT FOR.....THE NEW PARISH WEBSITE

Coming soon to your computer we will be launching a new parish website. Currently, we are working on a new design and updating the information on the parish website. This new instrument will improve our ability to communicate with parishioners and announce important events in a timely fashion. We will now have to manage the website from the parish office and to change and renew information to keep it up to date. To those involved in parish ministries and organizations, you will be contacted for your input as we build the various descriptions and calendars and events. We will need your information to make it available to all visitors to the website. We will also be looking for photography of events and ministries at work. Although no firm launch date has been determined, we are shooting for a launch around the beginning of December.

VETERANS DAY

Today the US honors military veteran for their dedicated service to freedom. We thank all those who served our country and their families for the hardship that service sometimes bring. You are in our prayers.

LITANY OF SAINTS

November 13 marks the feast in the USA of the first US citizen to be canonized a saint. Saint Frances Cabrini was born in 1850 in Lombardy, Italy. Having been rejected by several communities of religious women due to ill health the local bishop encouraged her to found the Missionary Sisters of the Sacred Heart. In 1889 Pope Leo XIII sent her and a small group of sisters to New York City to work among the many Italian immigrants there. They founded schools, orphanages, hospitals. Later St. Frances expanded to Chicago working there for more than a decade. In 1909 she became a naturalized citizen of the US. She died in Chicago in 1917 and was canonized in 1946. Saint Frances Cabrini, pray for us!

Stress Relieving Pick-Me-Ups

Laugh Out Loud – Feeling stressed about work, family responsibilities, life in general? There are plenty of quick things you can do to reduce your tension. Throw a comedy into the DVD player, invite over some friends, and share a few good laughs. Every time you can really laugh, increased oxygen reaches your organs, blood flow increases, and stress lessens. In fact, just thinking about having a good laugh can be enough to lower your stress hormone levels.

Pet Your Dog – Your pet not only gives you unconditional love, but he's also good for your health. When you pet your dog even for a few minutes, your body releases feel-good brain chemicals like serotonin, prolactin, and oxytocin. At the same time, it decreases the amount of the damaging stress hormones that are released. That can mean lower blood pressure, less anxiety, and even a boost in immunity.

Clean the Clutter – Being surrounded by too much stuff can be overwhelming and contribute to stress. It brings on anxiety when you can't find your checkbook, your child's homework, or the utility bill. So de-clutter to de-stress. Tackle a drawer, shelf, or tabletop one at a time. An uncluttered space can feel satisfying and restorative.

Drink Some Orange Juice – The tart beverage that already may be a regular part of your morning routine could help you in surprising ways. Researchers say Vitamin C may help people manage their stress more effectively, in part by lowering levels of stress hormones like cortisol. As an added bonus, vitamin C – rich foods such as orange juice, grapefruit juice, and strawberries, can help boost your immune system.

Take a Deep Breath – Aromatherapy isn't just for spas. No matter where you are, taking a deep whiff of lavender or rosemary may put you in a more relaxed state. Inhaling these aromas may lower your levels of the stress hormone cortisol. But just the act of breathing deeply is also a stress buster. Deep breathing sends oxygen surging through your bloodstream, helping to calm your entire body.

Sing a Song – Turn up the radio. No matter how out of tune you are, singing can make you feel happier. Choral members who were surveyed said that singing put them in a better mood and made them feel less stressed. Singing can also be good for your breathing and posture, as well as your heart and immune system.

Take a Walk – Exercise is a great way to ease stress. It helps your body produce endorphins – the neurotransmitters in your brain that make you feel good. It also forces you to focus, helping you think less about what's making you anxious.
