25th Sunday in Ordinary Time

From the Desk of Fr. Rick Schilli re: All Things New. . .

ALL THINGS NEW LISTENING SESSIONS

Thanks to all of you who have participated in the All Things New surveys and provided data and feedback over the past few months. The information has been enlightening, educational and fruitful as we continue to ask ourselves what our parishes, ministries and institutions need to look like in order to effectively share our Catholic faith in a way that is suitable and sustainable for our children and generations to come.

The next step in this multi-year process is to hear more robustly from you, our parishioners, about our parish. The Archdiocese of St. Louis will host over 350 listening sessions throughout our 178 parishes between October 8 - November 19, 2022. *OLP's Listening Sessions will be November 5 or 12 from 9-11AM.* You are invited to register for our listening sessions beginning mid-September at <https://allthingsnew.archstl.org/>.

Parishioners must register in order to attend a Listening Session. Registration will close once the designated room's seating capacity is reached. There will NOT be additional opportunities for Listening Sessions other than the ones scheduled for each parish.

Each listening session, including ours, will be facilitated by volunteer parishioners from a different parish. These trained facilitators will share pre-recorded messages from Archbishop Rozanski and Fr. Chris Martin, Vicar for Strategic Planning, with an overview of All Things New, a planning area overview and multiple DRAFT model options to consider for our respective planning area. A brief time will be allowed for small group discussion and facilitated large group feedback.

The goals of the listening sessions are to engage as many of you as possible in understanding the current state of our parish and diocese and to solicit feedback from as many of you as possible about the DRAFT models options for their planning area.

After the final listening session in each planning area, the Archdiocese of St. Louis will make public the content presented at all the parish's Listening Sessions in that planning area and will offer an additional opportunity for parishioners to provide open-ended feedback through an online survey. The survey will remain open until December 31, 2022. Parishioner feedback to the models is critical, as it will be used to help shape the future of the Archdiocese of St. Louis.

In order for you to be fully prepared with accurate information before our parish listening sessions, you can view our Parish Workbook at allthingsnew.archstl.org then select **Ways to Engage, Parish Workbooks, Area 4** and drop to **Our Lady of Providence** for our workbook. Here you can see the data which leads to the models and options that will be presented at the listening sessions on November 5 and 12. The Archdiocese of St. Louis has created Parish Workbooks as a supplementary resource to help us prepare for the listening sessions. The workbooks are meant to equip us with data about the Archdiocese of St. Louis, our local planning area, and our specific parish. (see next page)

TWENTY-FIFTH SUNDAY IN ORDINARY TIME

Today the parables of Jesus continue with a confounding and enigmatic parable about the “dishonest Steward”. Clearly, it can be asserted that Jesus is not advocating dishonesty; nor does he suggest rewarding dishonest people for their actions. He does, however, advocate responsibility for our actions, particularly our misdeeds and shortcomings. The Gospel demands letting go of those vices which compromise the Gospel. For St. Luke, greed is particularly vicious and insidious. Greed must be displaced by generosity and being other-centered after the example of Jesus Himself.

ALL THINGS NEW - LISTENING SESSIONS

Please pay particular attention to the **notice on page 2 in today's bulletin**. We will be hosting two Listening Sessions to share with parishioners the **First Draft Models** for Planning Area #4 (our planning area). These **Listening Sessions will be held from 9:00 am-11:00 am on Saturday November 5, 2022 and Saturday November 12, 2022. You will need to register online in order to attend.**

What you will learn are the options being considered for discussion and further examination as we move toward next Pentecost. **You will NOT hear what parish buildings will be used (that is, what parishes will close) nor any indication of clergy personnel.** Those issues will be determined later in the discernment process. **Also, you will NOT hear any proposals pertinent to the plan for Catholic schools.** That part of the initiative will be announced in mid-January prior to the time for school registration for the 2023-2024 school year.

These Listening Sessions will take place here at OLP for our parishioners only. We will be led by a Facilitator appointed by the ATN Office, who is not a member of our parish. We will be meeting those mornings in the school cafeteria. As soon as the link for registration is available, we will announce it. Once a session reaches its capacity, the registration for that session will be closed.

After the Listening Sessions for the entire Planning area #4 have been completed, these proposed models and options will be published and available to all parishioners within that Planning Area.

Please continue to pray for the gift of true discernment so that we may continue to do the Will of God in all things.

LITANY OF SAINTS

In anticipation of the upcoming Listening Sessions and for the smooth advancement of the discernment for All Things New, let us ask the intercession of the saints we remember this week: St. Januarius, St. Andrew Kim Taegon, St. Paul Hasang and their Korean martyr companions, St. Matthew the Apostles and St. Pio of Pietrelcina. Saints of God, pray for us!

STEWARDSHIP

"No servant can serve two masters. He will hate one and love the other, or be devoted to one and despise the other. You cannot serve God and mammon (wealth)." Luke 16:13

Jesus knows that for many of us, God and money run "neck and neck" as top priority. Is money a "god" that you put before God? Giving money to support the Church and other charity is a pillar of our faith, just like attending Mass every Sunday and participating in parish ministry. Giving money frees us from becoming a slave to money. It increases our dependence on God and our trust that God will provide all that we need.

Leeches: The Wiggly Wonder Worm!

1500 BC and Beyond: Leeches have been used medically for thousands of years – dating back to Greece and Egypt when bloodletting was a common practice. The earliest clearly documented record of leeches being used for medical purposes appears in a painting in an Egyptian Tomb around 1500 BC.

Practitioners of the time believed the removal of blood from a patient could prevent illness and cure disease. Sometimes crude instruments were used for bloodletting, but more often, leeches were used. Once attached to the patient's skin, the leeches would do what they were designed to do – feed on blood.

Clearly, modern clinicians do not support the practice of bloodletting, however, many do believe the use of leeches in certain, and very specific medical situations have the potential to save lives and limbs.

Approved by the FDA: The U.S. Food and Drug Administration in 2004 approved the use of leeches for localized venous congestion after surgery, recognizing them as living, breathing medical devices.

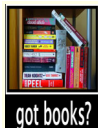

Not Just Any Ole Worm! Leeches are bred specifically for medical use at farms around the country. They are sanitized before attachment to the patient and are used only once. After they have fed and are removed from the patient, they are anesthetized and disposed of as medical waste.

Preventing a Rare Complication After Surgery: Reattachment operations, skin grafts, and reconstructive plastic surgeries for cancer and trauma often require microsurgical techniques – the use of a microscope and specialized instruments to attach tiny blood vessels with equally tiny sutures and needles. In rare cases a flap or reattached body part may develop a dangerous complication called venous congestion.

Venous congestion occurs when the tiny, thin-walled veins involved in microsurgical procedures are unable to carry the appropriate amount of blood away from the surgical site. Instead, the blood pools in the veins and is unable to flow back to the heart and lungs to be re-oxygenated. If the congestion is left untreated, carbon dioxide will accumulate in the stagnant blood and ultimately cause tissue death. This is when medicinal leech therapy may be recommended for an optimal outcome.

Keeping Blood Flowing: Leech saliva contains hirudin, an anticoagulant and anti-platelet agent that works to prevent blood clots and reduce the amount of congested blood in the tissues. Other leech saliva keeps the blood flowing in the damaged area, even after the leech is detached, allowing time for new veins to grow and the existing ones to widen and accommodate more blood flow. As a bonus, the treatment is painless – when the leech bites, they release a naturally occurring anesthetic that numbs the area.
